```

What is claimed is:

1. A composition consisting essentially of: epigallocatechin, mannofuranose, α -D-xylopyranose, gallic acid, palmitic acid, stearic acid, trans-catechin, cis-catechin, and an acceptable carrier.

2. The composition of claim 1, wherein epigallocatechin is present in an amount of 35-50% (w/w) of said composition.

3. The composition of claim 1, wherein mannofuranose is present in an amount of 15-22% (w/w) of said composition.

4. The composition of claim 1, wherein α -D-xylopyranose is present in an amount of 1.5-3.5% (w/w) of said composition.

5. The composition of claim 1, wherein gallic acid is present in an amount of 3-7% (w/w) of said composition.

6. The composition of claim 1, wherein palmitic acid is present in an amount of 4-8% (w/w) of said composition.

7. The composition of claim 1, wherein stearic acid is present in an amount of 0.5-3.5% (w/w) of said composition.

8. The composition of claim 1, wherein trans-catechin is present in an amount of 8-15% (w/w) of said composition.

9. The composition of claim 1, wherein cis-catechin is present in an amount of 7-16% (w/w) of said composition.

10. The composition of claim 1, wherein any one of said: epigallocatechin, mannofuranose, α -D-xylopyranose, gallic
